RESUME

ASHIK VARMA A
Full Stack Developer

PERSONAL

A SHORT INTRO
2020

Dedicated and efficient Full Stack Developer with an experience of 2.5 years in Agile practices. Hands on experience in Scrum implementation. Hands on experience in AI/ML domain. Built an MVP for the current employer. Efficiently managed GitFlow architecture in the team. Experienced in AWS micro-service architecture, CI/CD. Seeking to further improve management/technical skills as a future Scrum Master.

WORK EXPERIENCE

VP-Mobile Technology,
Balnc Care Ltd

Angular8, Node JS, Express, AWS, Python, Tensorflow

- Built an MVP for the company. The mobile application built on android, gets posture of a basketball athlete and shows metrics such as release angle, release time, shot angle etc. real-time while training. Achieved model accuracy of 68% without using AR or depth sensors. Built purely with 2D image input.

- Built an internal escalation tool from scratch using Angular, Nodejs and MySQL. The project is hosted on the company's AWS machine. Associates can login and see the list of emails with SLA and Response SLA. They can respond to emails and the admin can track all emails and agents.

- Hands on experience on different roles as Scrum master, Product Owner etc. While implementing Scrum for the projects.

- Built a minimal email server on a Linux server.

- Worked on increasing efficiency by implementing micro-services architecture and implementing CI/CD in AWS.

Software Engineer
Polus Softwares, Trivandrum

Angular8, Node JS, Ionic3

- Worked as a part of an engineering team on MIT Kuali Coeus Project which is a tool for Enterprise Research Administration.

- Took key part in implementing modules for building a collaborative proposal, Multilevel proposal reviews, Edit and review awards and customizable dashboard. Languages used were Angular5-8, Node js and Java Spring Boot for the back-end.

EDUCATION

B.TECH
2013 - 2017

INFORMATION TECHNOLOGY
University College of Engineering, Kariavattom
